☒ **Modified as follows:**

The timeline to provide complete and adequate plans for interim reclamation and stabilization of the cut slope in the borrow area and all other requested information is hereby extended to August 22, 2016. The abatement date for NOV 21183 is hereby extended to September 6, 2016 to allow the Division time to review and approve the plans. September 6 is 90 days from June 9, 2016, the date of receipt of the certified NOV 21183.

## Reason for modification:

A response to NOV 21183 cannot be processed by the Division until the response to NOV 21164 is approved.
